

Lift

```
graph LR; Lift[Lift] --> servo_1[servo_1];
```

The diagram consists of two rectangular blocks connected by a horizontal arrow. The left block is light gray with a black border and contains the text 'Lift'. The right block is white with a black border and contains the text 'servo_1'. A dark blue arrow points from the right side of the 'Lift' block to the left side of the 'servo_1' block.

servo_1
